

THE AUTOMOTIVE LIGHTING BENCHMARK

2015+ FORD F150 XB LED TAIL LIGHTS INSTALL GUIDE

WARNING: By reading this document, you agree it is only to be used as an educational guide. Morimoto Lighting nor its dealers make guarantees on any finished results, nor are they to be held responsible for any damage, misuse, or personal injuries. If you are unable to clearly understand and adapt the information below, professional installation is recommended.

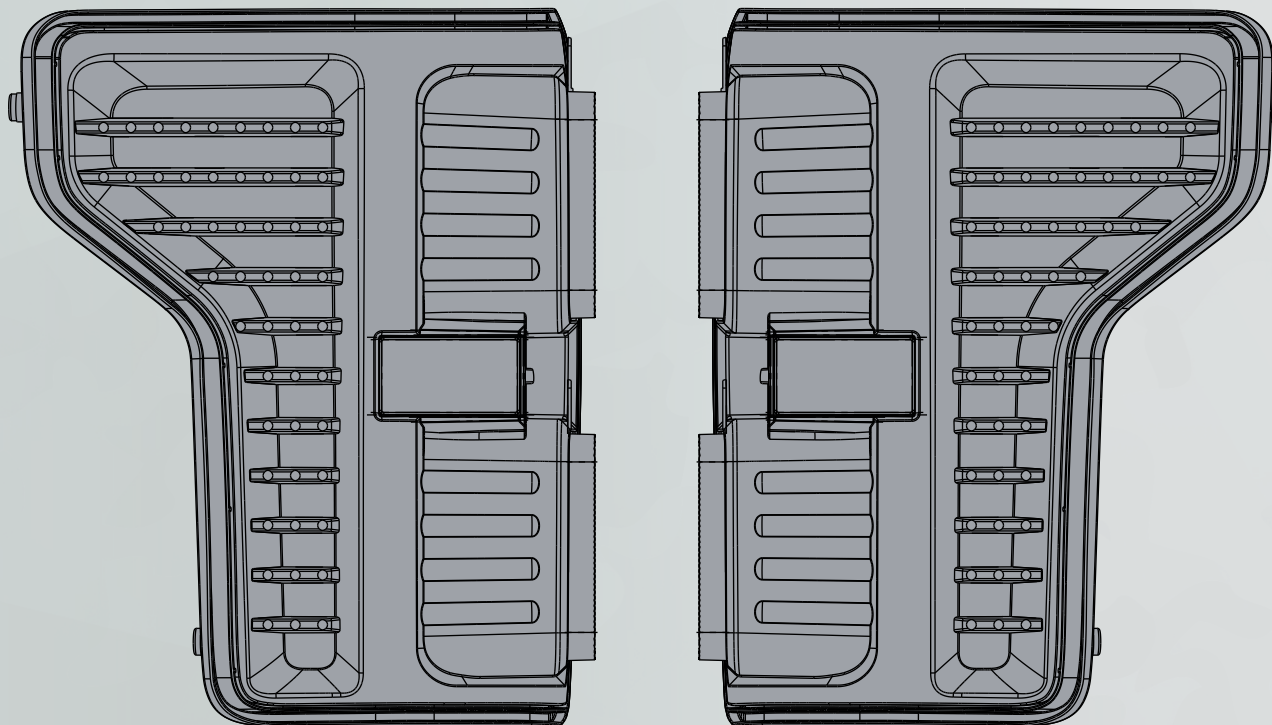

IMPORTANT: If your vehicle is equipped with anything but OEM turn signals (full assemblies, LED bulbs, or otherwise) in the headlights or elsewhere: You may experience a hyper flash and/or problem with the sequential signal setting on these tail lights. This is not a defect in the tail lights, and caused by un-matched impedance with your original vehicle settings.

PARTS IDENTIFICATION

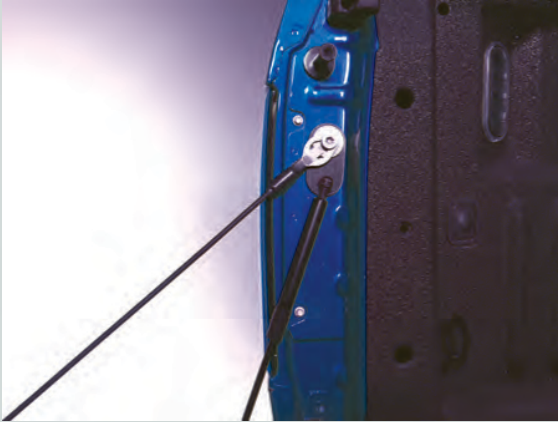

STANDARD PARTS

2x TAIL LIGHT HOUSINGS

INSTALLATION PROCEDURE

1. Remove the two 8mm screws securing the factory tail light.

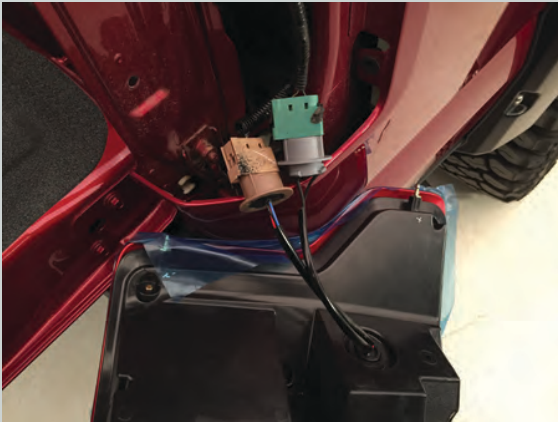

2. Remove the tail light by applying firm pressure to release the push-clips.

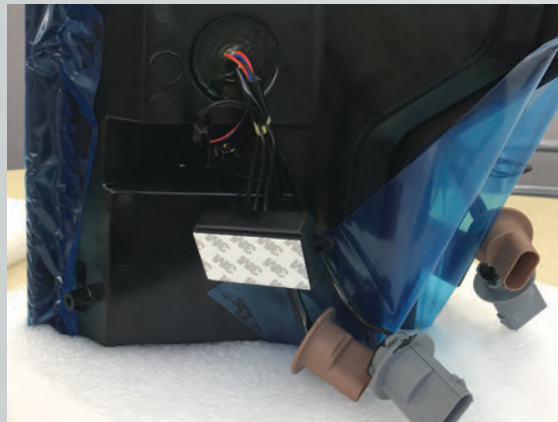

3. Disconnect the factory plugs from the factory tail light bulb sockets.

4. Connect the XB LED tail lamp plugs to the factory harness.

5. Secure the resistor box to the truck's sheet metal using the fitted 3M tape backing.

6. Install the XB LED tail lights in the reverse order of removal.
